About Me

Hi, I'm Henra.

I am a graduate of a vocational high school majoring in Software Engineering. I am proficient in both frontend and backend development, with experience using JavaScript, PHP, Node.js, React.js, Tailwind CSS, and C#. I am passionate about building functional and user-friendly applications.

I participated in extracurricular activities such as Journalism and the Red Cross Youth (PMR), which helped develop my communication and teamwork skills.

I also completed a 6-month internship at Oke Web Indonesia as a WordPress Developer, where I gained hands-on experience in website development, plugin customization, and client-based project handling.

Education

- **SMKN 1 PONOROGO**
Software Engineering (RPL) 2022 - 2025
Graduated with practical experience in software development, including web technologies (JavaScript, PHP, Node.js, React.js), UI design (Tailwind CSS), and desktop programming (C#). Completed a 6-month internship as a WordPress Developer at Oke Web Indonesia. Actively joined Journalism and PMR to improve non-technical skills such as teamwork, creativity, and social responsibility.

Experience

- **OKE WEB INDONESIA**
WordPress Developer 2016 - 2020
During my internship at Oke Web Indonesia, I worked as a WordPress Developer handling both frontend and backend development. My responsibilities included:
 - Customizing WordPress themes and plugins to match client requirements
 - Developing and maintaining responsive websites using HTML, CSS, JavaScript, and PHP within the WordPress framework
 - Assisting in optimizing website performance and SEO settings
 - Writing promotional content for company websites and social media
 - Designing digital marketing materials such as posters, banners, and promotional graphicsThis internship helped strengthen my skills in web development, content creation, and graphic design, while also improving my ability to work in a team and meet deadlines in a real working environment.
